Elite athlete funding Policy

Purpose:

Judo Alberta would like to fund serious athletes that would like to eventually represent Canada at international events on the U18, U21 and senior level of competition.

Application for Funding:

- Any athlete that would like to apply for funding can do so by September 30th of the start of the judo season, and also by January 15th of the start of the 2nd half of the season.
- Funding is subject to budget availability.
- Athletes must submit a letter of intent for the coaching staff by either of the above dates. This letter must include a plan of tournaments, training regiment, and past judo accomplishments.
- After the due date for the letters the coaching staff will then review the applications and allocate the funding as they see fit.
- Application to the coaching staff does not guarantee funding.
- The athletes applying for funding are expected to be members in good standing with Judo Alberta, participating in provincial training camps and competitions, or athletes that are training at the NTC.

After national championship selections:

- The provincial coaching staff will allocate a certain amount of funding for selected athletes after National Championships, budget permitting.
